PROFESSIONAL SUMMARY

BCA student (expected graduation 2027) seeking an AI/ML entry-level role. Foundation in Python and machine learning concepts, including supervised and unsupervised learning. Uses NumPy, Pandas, and Matplotlib for data handling and visualization. Familiar with SQL, Git, GitHub, AI-assisted coding, and AI agent workflows. Interested in applying data and machine learning to real business problems.

TECHNICAL SKILLS

Programming & Database:	Python, SQL
AI & Machine Learning:	AI Fundamentals, Machine Learning Fundamentals, Supervised Learning, Unsupervised Learning
Data Handling & Visualization:	NumPy, Pandas, Matplotlib
Development Tools:	Git, GitHub
AI-Assisted Development:	AI-Assisted Coding and Debugging, AI Agent Workflows
Business & Productivity Tools:	MS Excel, Power BI (Basics), MS Office

EDUCATION

Bachelor of Computer Applications (BCA) | Expected Graduation: 2027
S. S. Jain Subodh P.G. Autonomous College

CAREER OBJECTIVE

To start my career in an AI/ML-focused team where I can apply Python, SQL, and machine learning fundamentals to real problems, and grow through hands-on work with experienced colleagues.
